Organisational structure and supply chains

This statement covers the activities of A.L.E UK Holdings Limited and its subsidiaries in the United Kingdom "ALE".

ALE aims to maintain and improve our position as a premium supplier of worldwide heavy transportation and lifting services to all sectors serviced. We do this by seeking new challenges, learning and adapting, and using the latest cutting edge technology to provide those services to a level of quality and flexibility that satisfies or exceeds customer, legal and other requirements. In order to do this ALE is committed to increase the effectiveness of our Integrated Management System, to continually improve competence levels, and to monitor performance and deliver supply chains that are free from slavery and human trafficking.

Countries of operation and supply

The organisation provides engineering services from a UK base to multiple countries across the world. Assessment of risk within health, safety, quality, environment "HSQE" and other areas is fundamental to our operations. The company applies a risk based approach to all business risks including that of slavery and human trafficking.

The company applies a risk assessment on the above areas in advance of new contracts and new operations and periodically on established locations.

High-risk activities

The board consider the services supplied by ALE to be at a low risk of slavery or human trafficking.
